About

Annual conference in Paris on the 27th-28th of February

19/03/2008 15:32:00 - by Jennifer Manning

The FTTH Council Europe has organised this year its Annual conference in Paris, the Europe FHHT capital.

The FTTH Council Europe (www.ftthcouncil.eu) has organised this year its Annual conference in Paris, the Europe FHHT capital.

With few exceptions, Europe lags well behind the US and Asian tiger economies in the availability of high-speed broadband services (100 Mbps and upwards). The Council believes that the development of fibre-based access networks is fundamental to the deployment of such services, and hence to reaping their benefits for European citizens and businesses.

The Council's charter is to work with European governments, policy-makers and opinion leaders qualify and quantify the benefits to be gained from fibre-based broadband access networks, and to identify and help to erode the barriers to their development. Council members are drawn from the telecoms (vendors), broadband content and academic sectors.
