

AND Company Profile

Software Solutions for Access Networks

AND Solution GmbH develops and markets software solutions for the efficient design, engineering and documentation of access networks incl. FTTx, HFC and DTH. In addition it offers an extensive portfolio of professional services including consultancy, data migration and training.

The company's core product AND (Advanced Network Design) is a sophisticated GIS-based network inventory management system solution providing comprehensive end-to-end documentation for the life-cycle of all types of access networks – both the trunk and in-house networks.

Over 60 million connections are documented in AND, making us No. 1 in Europe's cable industry (market shares approx.):

- Denmark: 95%
- Germany: 90%
- Switzerland: 80%
- Finland: 60%

And AND's global reach grows steadily - for example in:

Austria, Belgium, Brazil, Croatia, Czech Republic, Denmark, Finland, Germany, Greece, India, Ireland, Luxembourg, Netherlands, Norway, Poland, Russia, Serbia, Slovenia, South Africa, Spain, Sweden, Switzerland, UAE, UK & Uruguay. Here some
